

Tokoname City Digital Hazard Map

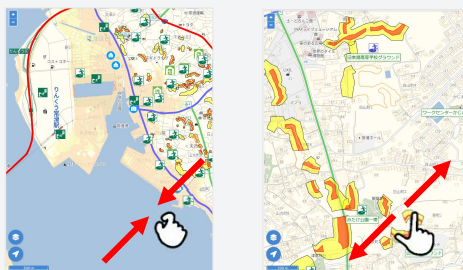

Distribution via the Internet allows viewing by anyone, anywhere.

You can check the location of dangerous areas, evacuation centers, and evacuation sites in advance with a smartphone or PC. In case of disaster:

- 1 Use the **Digital Hazard Map** to check dangerous areas around your home, school, work, and routes to school or work.
- 2 Discuss routes to the evacuation site with your family, community, and workplace.

01 View and print at any scale

You can display the location you want to check at any scale and print it out.

02 Map Selection

You can select the disaster type [Earthquake, Tsunami, Storm Surge, Flood, Inundation Results, Reservoirs, Sediment] and display the hazard map.

03 Multilingual support

Select the language you want to view in and the map will switch to the selected language.

[Supported languages]
English / Chinese (Simplified / Traditional) /
Korean / Portuguese / Vietnamese

04 Cooperation with City Official LINE

You can check the Digital Hazard Map from the disaster prevention menu of the city's official LINE.
