

常滑市公式 防災アプリ

とこなめ防災

Tokoname Disaster Prevention App

The Tokoname Disaster Prevention App receives emergency information broadcast from the municipality and provides this info as push notifications.

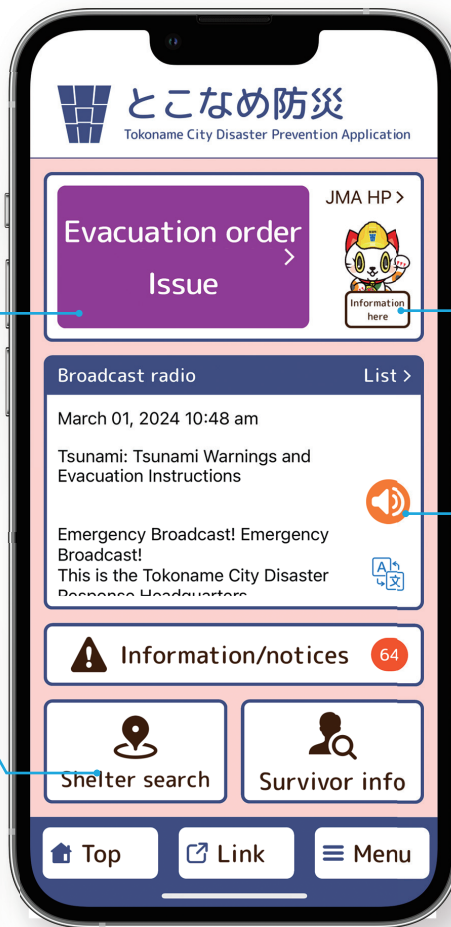

Push notifications

Push notifications inform of evacuation orders and disaster prevention information from JMA.

Disaster prevention map

The app automatically searches for nearby evacuation sites and evacuation shelters. It displays hazard maps of tsunami warning areas and other dangerous areas.

Current location info

Allows you to check the weather, latitude, longitude, and altitude at your location and your position on the hazard map.

Municipal disaster communications

When disaster communications are broadcast, push notifications will provide audio and text of the announcement, even when you are outside of the speaker broadcast range.

Main functions

Delivery of audio of municipal disaster communications

Push notifications of disaster prevention info

Search evacuation shelters/ Hazard map

AR camera/ Evacuation compass

Safety registration and verification

Information on disaster status

Download on the App Store

GET IT ON Google Play

Both OS use the same QR code

Recommended OS | iOS/13.0 or later
Android/8.0 or later

とこなめ防災

Various features

01

Disaster prevention push notifications

Push notifications alert you of evacuation information and disaster prevention information, even when the application is closed.

02

Automatically searches for evacuation shelters

The app automatically searches for nearby evacuation sites and shelters. Allows checking for open shelters during a disaster.

03

Evacuation support functions

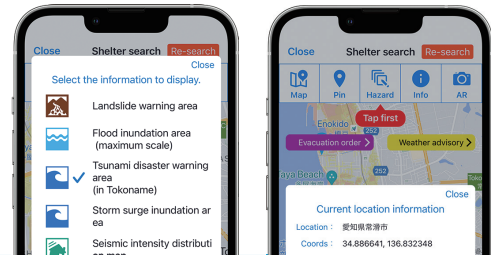

The AR camera and evacuation compass help with evacuations. The route guide allows for stops to be added to the evacuation route.

04

Verification with hazard maps

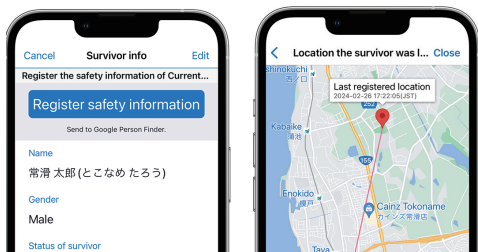

Displays various hazard maps, e.g. tsunami warning areas and areas of anticipated flooding.

05

Safety registration and safety verification

You can mark yourself as safe during evacuation. Setting up a family group allows families to verify everyone's safety status.
